NexPress M700
Digital Color Press

Power your growth

The digital color market is exploding. Your clients are demanding personalized, high-impact documents to help improve their bottom line. And you're ready to jump into the on-demand color space and grow your business to new levels.

The new **Kodak NexPress** M700 Digital Color Press provides the power to do just that. Designed to meet the demanding needs of the graphic communications market, the M700 Press can help you exceed your current clients' expectations for quality and performance - and acquire additional clients by developing new applications.

Personalized direct mail, marketing collateral, business documents and photo books are just a few of the applications that will drive new business and keep your clients coming back.

Color with confidence

It's critical to your success to efficiently produce color documents with excellent image quality using an integrated workflow.

The M700 Press has the features and capabilities to enable you to confidently produce color documents that will distinguish your business from others.

▸ Productive, four-color press that runs at 70 pages per minute

▸ Innovative imaging process that delivers high density, wide color gamut and excellent paper-to-image gloss matching

▸ Dual-fusing system that enables mixed media throughput and printing on heavy substrates at rated speed

▸ Scaleable **Kodak NexStation** Front End built on open architecture that seamlessly accepts file formats from commonly used application software

Drive your success

The M700 Press offers a unique business model that helps you manage your profitability through a high level of operator serviceability, enabling you to maximize uptime, manage image quality, and control costs.

Dedicated specialists are available through **Kodak MarketMover** Business Development Services to implement marketing programs designed to optimize your business success.

When you're ready to take on greater print volumes and new capabilities, Kodak has a full line of digital production presses to take you to the next level.
